GLOBAL REMOTE & HYBRID WORK POLICY

NEXUS ENTERPRISE SOLUTIONS • HUMAN RESOURCES POLICY HANDBOOK (SECTION 4.12)

Document ID:	POL-HR-2026-0412	**Effective Date:**	January 15, 2026
Version:	v4.2 (Rev. Annual)	**Owner Dept:**	Global People & Culture Operations
Target Audience:	All Full-time & Contract Staff	**Classification:**	Internal HR Confidential

1. PURPOSE AND SCOPE

This policy establishes operational guidelines and administrative standards for remote and hybrid work arrangements across all global subsidiaries of Nexus Enterprise Solutions. The objective is to maintain organizational productivity, data security compliance, and employee well-being while offering location flexibility.

2. WORK ELIGIBILITY TIERS

Remote eligibility is determined by job function requirements, security protocol clearances, and manager approval. Employees are assigned to one of three official work tiers:

Tier Identifier	On-Site Requirement	Eligible Functions	Equipment Allowance
Tier 1: On-Site Essential	5 Days / Week	Data Center Ops, Facilities, Hardware Lab Techs	On-site Workstation + $200 Gear
Tier 2: Hybrid Flexible	2–3 Days / Week	Software Engineering, Product, HR, Finance	Dual Monitor Set + $500 Stipend
Tier 3: Full Remote	0 Days (Quarterly Visit)	Field Sales, Regional Support, Technical Writing	Full Home Office Kit + $1,000 Stipend

3. CORE WORKING HOURS & AVAILABILITY

All employees operating under Hybrid or Remote tiers must maintain synchronous availability during regional **Core Hours (10:00 AM to 4:00 PM local time zone)**. Communication channels (Slack, MS Teams, Enterprise Email) must be monitored during active duty shifts.

> **Mandatory Compliance Clause 3.4 (Data Protection):** Remote workers must operate exclusively from encrypted company-issued laptops connected via the Corporate Zero-Trust Network Access (ZTNA) VPN tunnel. Working from public unencrypted Wi-Fi networks without an active ZTNA connection is strictly prohibited under Disciplinary Policy Sec. 9.

4. EQUIPMENT, EQUIPMENT REIMBURSEMENT & EXPENSES

Eligible employees receive a one-time home office setup stipend based on their tier assignment. Claims must be submitted via the Expense Portal within 30 days of onboarding alongside itemized tax invoices. Monthly internet subsidies ($75/month) are automatically processed in regular payroll runs.

5. PERFORMANCE MONITORING & POLICY GOVERNANCE

Remote performance is evaluated against key deliverable outcomes (OKRs/KPIs) rather than hours connected. Managers conduct bi-weekly check-ins to monitor project alignment and workload balance.
